

Information Guide - Roughrider Days Parade

*Our 2022 parade theme is “**Land That I Love**”!!*

- Candy and items are allowed for distribution by participants. Please keep in mind spectator safety when tossing or passing out candy and items to ensure a great parade for all!
- All entries will be assigned a staging area in which to assemble. **All entrants are encouraged to be ready before checking into their assigned staging area.**
- Please look for RRC volunteers in teal shirts for help during staging line-up. We appreciate your patient as well!
- The **official line-up** will be posted to our website by Monday of parade week. This includes your float name, number and staging location to notify anyone associated with your entry or may be dropping off parade participants.
- **During the parade, we encourage 1 car length distance between floats.** We kindly ask groups to not stop along the parade route to avoid undue gaps in the parade. We have a long parade route with a lot of floats so we also need to keep the pace moving steadily.
- **Be prepared for the weather.** Generally, it is warm so be prepared by having water with you along the route. If you are walking, wear good, comfortable walking shoes. *We recommend having extra space on your float in case walkers need a short break!*
- **If entry must stop:** please shift to the side of the road to allow other participants to continue along the route as scheduled.
- All parade entrants are responsible for their own safety precautions and are expected to practice their own preventative measures.
- **All parade entries should be tastefully decorated.** A tastefully decorated parade entry will include, but not be limited to the inclusion of, materials such as fringe skirting, bunting and other colorful decorative items.

Yeehawww, Let's make this Roughrider Days

Parade the best one yet!!!
